Madi,

We'll send you something tomorrow and setup a meeting to discuss.

Hi Mike,

Checking in on this. Which data are you waiting on? I think we discussed using the groundwater data to support the Phase 2 porewater sampling scope, but didn't necessarily need all subsurface sediment data. That may have changed/be changing, given the chlorobenzene and any other prelim results you are receiving, and certainly want to use of the information you are gathering in Phase 1 to maximize value of Phase 2 work. Let me know if it would be useful to discuss.

Thank you,

Madi

That partly depends on when we receive all our Phase I lab data. As you know, the labs are running behind. We work on getting you a tentative date for submitting the draft work plan in the next few days.

Subject: Phase 2 Work Plan

Hi Mike,

When are you expecting to submit the draft Phase 2 Work Plan? We'd like to put it on our calendar (and the TCT calendar) so that we can review in time for you to collect samples this summer as intended.

Thank you,

Madi Novak, Remedial Project Manager
EPA Region 10, Superfund & Emergency Management Division
Oregon Operations Office
